

Education

- **KAUST - AI Initiative** Saudi Arabia
PhD in Computer Science under the supervision of Juergen Schmidhuber Aug. 2022 - Present
– Research Interests: Explainable, Reliable, and Responsible AI
- **SZU (Shenzhen University) - Computer Vision Institute** Shenzhen, China
M.S. in Computer Science June. 2019 - July. 2022
– Research Interests: Adversarial Learning & Self-supervised Learning

Awards, Grants & Honors

Outstanding Graduate Award (Rate\leq5%)	2022
China National Scholarship (Rate\leq0.02%)	2021
Excellent Academic Scholarship, First Class	2020
Excellent Academic Scholarship, Second Class	2019
National University Big Data Application Innovation Competition in Northwest, First Place	2018
National University Big Data Application Innovation Competition, Second Place	2018
Excellent Graduation Design (Thesis) of SUST, Best Undergraduate Thesis	2018

Research Experience

- **AI Initiative (KAUST)** Saudi Arabia
PhD Student supervised by Prof. Juergen Schmidhuber 2022 - Present
 - Research Field includes explainable, reliable, and responsible AI.
 - Proposed Deep State Identifier to identify and recognize relevant states/actions/rewards for explaining the behavior given a policy. This project is accepted by **ICCV'2023**.
- **Jarvis Lab (Tencent)** Shenzhen, China
Internship supervised by Mentor: N. He & Y. Li and Director: Y. Zheng 2021 - 2022
 - Proposed AdaptiveMix to improve GAN training, which is accepted by **CVPR'2023**. (This project cooperates with AI Initiative, KAUST)
 - Proposed offline entropy estimation to combat mode collapse, which is accepted **AAAI'2023**. (This project cooperates with AI Initiative, KAUST.)
 - Proposed Point Beyond Class to reduce the annotation cost for medical object detection, which is accepted by **MICCAI'2022**
 - Participate to NICO Challenge (ECCV'2022 workshop), our team reach to 5th/40 in both tracks at Phase I.
- **Norwegian Biometrics Laboratory (NTNU)** Gjøvik, Norway
Visiting Student supervised by Prof. C. Busch and Prof. R. Ramachandra 2021 - 2022
 - Proposed a self-supervised learning-based method for face and fingerprint presentation attack detection, which is accepted **IEEE TNNLS**.
 - Proposed a face presentation attack detector based on the taskonomy features, which is accepted by **ECCV' 2022**.
- **Computer Vision Institute (SZU)** Shenzhen, China
Member in Biometrics Group supervised by Prof. F. Liu and Prof. L. Shen 2019 - 2022
 - Proposed a regularization method to improve the robustness of CNN-based models, which is accepted by **ICCV'2021** and open source.
 - Collected a famous presentation attack dataset based on OCT and for **the first time** established a one-class framework for OCT-based PAD. This work is accepted by **IEEE TIP**
 - Proposed a presentation attack detector using Global-Local model, which reaches over 90% in terms of TDR@FDR=1% on LivDet2017 for **the first time** (Accepted by **IEEE TCYB**)
